TWEAK PACKAGES

\$60 for 3

\$100 for 6

\$40/on call

Custom amounts per request

These expire one year after purchase

All plans receive all listed features except Woocommerce template modifications, merchant gateway troubleshooting, and tweaks unless stated.

*A "Tweak" is a small modification or content addition to a website that takes 10 to 15 minutes. It can also be considered a phone conversation with a question that lasts more than 10 minutes.

Tweaks expire at the end of the month on all plans. Tweak packages expire after one year.

"On Call" means tweak request without package or plan.

Tweaks are designed to simplify the billing process for both us and the client.

OTHER ADD-ON SERVICE

Domain renewal and management

Extra detailed reporting such as website visits

Administrative reminders

More to come

DISCLAIMERS

^Updates include free plugins typically found on the WordPress repository. Listen to the Wind Media does cover certain paid plugins such as Gravity Forms, WP-Toolset and Soliloquy Slider (so you would save money by not having to subscribe to them.) For a list of paid plugins we hold subscriptions to, please contact us. Otherwise any plugin that requires a fee is the responsibility of the client to purchase. Listen to the Wind Media will take care of purchasing and managing paid plugins if the client wishes, but the client will be billed for that plugin plus a 20% surcharge of the cost of the plugin.

**Malware scans do not include fixing a site if malware is found. Depending on extent of the infection will determine the cost of repair. Typically restoring a backup is the best way to make sure you have a clean site. (If you your website is hosted with us, restoring your site from a back up to resolve the issue is FREE of charge.) It also may require determining how the infection occurred. You will be notified of a price before work begins on repairing your site. If it takes longer than expected, you will be notified as well. In some cases, we might use an outside company to repair your site if needed. This can be much more cost effective.

***Backups are kept for 4 weeks. (Meaning you will have 4 backups going back one month.) Hosted clients also received an additional monthly backup going back 6 months. Restoring a backup is not included in the monthly care plan. Certain hosts might configure their server so backup services do not work properly. This is a rarity, but if this happens, Listen to the Wind Media will try other alternatives to back up your site. if it still can't be done, Listen to the Wind Media will note it on your monthly client report.

****Under our monitoring feature, we will be alerted if your site goes down. Many times when a site goes down, the host might be doing quick maintenance or restarting their server. Because of this, we typically wait to notify you. If your site goes down for more than 15 minutes you will be notify. If you choose, we will contact your host and resolve the problem for a fee.

For simplicity, we highly recommend hosting your website with us.

† All hosted sites with Listen to the Wind Media get a free SSL certificate.
